SUNDANCER | FLY | VENTURE

# THE MOMENTS WE REMEMBER

...didn't happen in front of a computer or on the couch. The moments we remember are filled with open sky, streaming sunlight, and the knowledge that you've done something right. Yes, happiness takes work. Fulfillment often takes planning. But once you are there—once you are basking in the warmth of the sun and the laughter of those you love—there isn't a word for that feeling. Give yourself a lifetime of moments to remember.

## SEA RAY® SUNDANCER, FLY & VENTURE

THE SEA RAY  
STORY

# 08

Premium-quality boats for enhanced living. That's the Sea Ray difference owners have enjoyed since 1959.

# A NEW DAY DAWNS

Morning's stillness invites renewal, with serenity and first light signaling the start of a new day. And somewhere between opening your eyes and that first sip of coffee, you realize: anything is possible today. And this is a good start.

# TIME WAITS FOR NO ONE

The people we surround ourselves with, the places we frequent—these tell our story. When the who and the where create the perfect why, the clock's ticking falls silent and the sunset lasts just a little longer.

# DEFINE YOUR NOW

Breathe deeply and imagine the memories you've not yet created. How will you bring them to life? A Sea Ray is a beautiful instrument to bend the universe to your purpose and decorate it with the stuff of dreams.

# THE SEA RAY STORY

From its very first boat in 1959 to each of those rolling off the line today, Sea Ray has always offered a bold vision of what boating can be and brought that vision to life with the finest craftsmanship, an engaging ownership experience and unparalleled support. Sea Ray owners enjoy the satisfaction of achieving the well-lived life on the water.

## CRAFTSMANSHIP

A Sea Ray® boat is a work of relentless commitment. Every stitch of upholstery, every arch and spoiler, every inch of hardware has to be just so. It's this obsession with the details that shapes our demanding standards for quality. From wood components fabricated in-house to laser-cut and hand-finished upholstery, Sea Ray boats combine the mastery of craftsmen with the precision of industry-leading technology for a caliber of construction you won't find anywhere else. It's a unique approach that carries through every step of the production process — and the resulting fit, finish and styling achieves a level of sophistication you can feel. It's why Sea Ray is the Most Awarded Boat Brand. Ever.

## VISION

Sea Ray® has always been known to push the envelope. Our boats were among the first of their kind to use fiberglass and other high-tech composite materials that would go on to become standards in the industry. Our Next Wave initiative is a commitment to develop and champion new technologies and design innovations like Quiet Ride™, SkyFlow™ and Concealed Outboard Propulsion™ with the goal of completely reimagining the boating experience. In fact, Sea Ray has one of the largest patent portfolios in the global marine community. This forward-thinking, cutting-edge, sky's-the-limit approach ensures you get the best of the best, even when the rest of the world hasn't even heard of it... yet.

## SUPPORT

From prototype to testing to construction, every Sea Ray® is designed to deliver unmatched reliability with zero room for compromise. Only the finest quality materials and components are used, and Sea Ray stands behind each model with some of the industry's best warranties. Owners enjoy an unmatched level of customer service from the most decorated network of dealers in the industry. All of these efforts exist to ensure your Sea Ray outperforms your expectations at every turn.

## LIFESTYLE

Own a boat, and you open up your life to a world of new possibilities. Own a Sea Ray®, and you can watch as those possibilities flourish into cherished moments. Owning a Sea Ray is an experience all its own, with exclusive social events, premium offers and participation in a community of like-minded boaters. It is complemented further by membership in the Sea Ray Owners Club\*. Simply ask any Sea Ray owner, and they'll tell you. Owning a Sea Ray isn't just about style, it's about lifestyle.

**1. TRANSOM PASSERELLE**

Our easy-to-operate gangways let you and your guests get on and off your yacht without a single misstep.

**2. HYDRAULIC SWIM PLATFORM**

Launching and retrieving your secondary watercraft is push-button easy with our hydraulic marine lift swim platform.

**3. SOLID-SURFACE COUNTERTOPS**

Beauty and durability go hand-in-hand with our beautifully finished solid-surface countertops.

**4. SKYFLOW DESIGN**

Sea Ray's innovative SkyFlow atrium design brings light and air deep into the boat.

**5. ADJUSTABLE FOREDECK SUNPADS**

Sit up for a relaxing read or lay down to really soak up the sun with our sunpads and backrest.

**6. SUNROOF SKYLIGHT**

Let the light in with an expansive hardtop skylight.

**7. AXIUS® AND ZEUS®**

The Zeus® propulsion system comes with a helm joystick for docking, Skyhook® station-keeping technology and an integrated autopilot.

**8. SMARTCRAFT® VESSELVIEW DISPLAY**

Keep in touch with your SmartCraft diagnostic instrumentation with this up-to-the-minute display.

**9. CHINA CABINET**

China cabinets on select Sea Ray® Yachts offer protection for our optional china place settings.

**10. TEAK FLOORING**

Optional teak flooring adds warmth and class to our Yacht series.

**11. COMMANDVIEW**

Sea Ray is the first marine manufacturer to integrate visualization into boat navigation. CommandView software stitches together multiple camera feeds for an integrated overhead view that links to your Raymarine navigation system.

**12. ROCKFORD FOSGATE® STEREO**

The Rockford Fosgate stereo system offers Bluetooth™ wireless connectivity and media inputs.

**13. OVERSIZED HULL & DECK WINDOWS**

Extra-large windows flood the cabins with natural light, making our yachts feel even more like home.

**14. FLATSCREEN TV & PREMIUM SOUND**

Our entertainment centers boast flatscreen LED Smart TVs with Blu-ray players, as well as Harman Kardon® home theatre systems coupled with Bose speakers.

**15. INNERSPRING MATTRESS**

You'll always wake up refreshed after a night spent sleeping on our high-quality, custom-made pillowtop innerspring mattresses.

**16. TRIPLE-PANEL DOOR**

Let the sunlight and sunset views in with the fully retractable triple-panel door (standard on the 510 Fly).

## SPORT CRUISERS, SPORT YACHTS & YACHTS | 260 SUNDANCER –540 SUNDANCER

Sea Ray® partners with the leading marine engine manufacturers to provide our Sport Cruiser, Sport Yacht and Yacht owners with unsurpassed power, reliability and support around the world.

Because Sea Ray has achieved Mercury® Installation Quality Certification, all new MerCruiser®-powered Sea Ray boats come with a two-year limited engine warranty. SeaCore™ engines come with up to a four-year limited engine and corrosion warranty\*. See your Sea Ray Dealer for details.

\*SeaCore warranty may vary by country. See your Sea Ray Dealer for details.

Mercury MerCruiser builds a gas engine for almost every boat application, from formidable MAG sterndrives to low-maintenance Horizon V-drives. Its innovative SeaCore system, available on select models, offers best-in-class corrosion protection with hard-coat anodizing, closed cooling and widespread use of stainless steel components.

Mercury engineers build and test reliability into all Mercury outboards because reliable engine performance is a must. Before an outboard is sent to test in the real world, it endures test after test in a state-of-the-art testing center all so you can take to the water with confidence every time, no matter what. Because when you're on the water, reliability is more than just a word, it's peace of mind.

Yanmar® diesel engines are among the toughest and most durable power available for pleasure boating. With regional headquarters in the U.S., Europe, Southeast Asia and Japan, plus full support facilities in more than 130 countries, Yanmar is dedicated to meeting the service needs of boaters everywhere.

Cummins Diesel®, the premier choice for diesel power, combines world-class research and engineering expertise, an exceptional range of products and an ever-growing global service network. Its six-cylinder Quantum® series delivers quiet, fuel-efficient power along with unmatched durability for a long life.

### STERNDRIVES

- > The drives can be adjusted to fine-tune the running altitude of the boat. This can shorten planing time, improve speed and fuel efficiency and help provide a smooth ride in variable sea conditions.
- > Trimming the drives up can allow for easier and safer beaching or anchoring in shallow water.
- > SeaCore technology, available on select MerCruiser models, protects against the harsh marine environment with anti-corrosion features.
- > When the captain turns the wheel, the entire drive turns, resulting in superior handling and maneuverability at speed.

### V-DRIVES

- > The underwater running gear is simple and durable—just a prop, rudder, shaft and strut—for minimum upkeep and reduced corrosion.
- > A V-drive boat usually has a shallower draft than a sterndrive with the drives all the way down.
- > The props are forward of the transom, providing excellent handling in close-quarters, such as when docking.
- > The transmission is mounted inside the boat. This allows easy access for maintenance without having to remove the boat from water.

### AXIUS/JOYSTICK PILOTING

- > Provides multi-directional thrust for 360-degree maneuverability and unmatched handling at slow speeds.
- > The intuitive helm joystick allows operators of any skill level to dock the boat with confidence and ease.
- > Axius is shown to deliver dramatic advantages in fuel economy, range, time to plane and top speed.
- > Comes with the Skyhook® Electronic Anchor station-keeping feature, which works at the push of a button.

### OUTBOARDS

- > The Mercury Verado® features a unique Long Bolt Engine Design to keep the powerhead in a state of constant compression, with rubber dampening to minimize the effects of engine vibration. Fewer parts moving means fewer chances for wear and tear.
- > All Verado FourStroke outboard engines feature a valve train with a unique, robust, overhead cam design; making it incredibly durable and unlike many competitors' four-strokes, maintenance-free for life.
- > For superior corrosion protection, Mercury engines are built with more stainless steel components, which translates to saltwater durability, longer intervals between maintenance and lower cost of ownership.

### GET A HANDLE ON MANEUVERABILITY

Sea Ray offers joystick propulsion systems on almost all of our Yacht models, providing owners with more carefree boating than ever before. Each technology has been thoroughly tested and sea trialed, ensuring control with confidence.

With Zeus®, multidirectional thrust is provided by twin Cummins Diesel inboards and independent, rear-facing pod drives. The joystick controlling the

system is touch-sensitive for intuitive docking, and the drives convert considerable performance for faster speeds and improved fuel efficiency. Rear-facing pod drives offer distinct advantages over forward-facing drives because they are protected by the gear case and skeg, thereby enhancing safety.

### CUMMINS® INBOARD JOYSTICK

The Cummins Inboard Joystick is a docking system designed specifically for use with traditional inboard engines and transmissions. With an unrivaled expertise in joystick control, Cummins uses a new class of DC thrusters with extended run time capability to bring your yacht to a new level of error-free navigation in close quarters. Cummins also backs up every component in the inboard joystick system with the same warranty and global service and support network as Cummins engines. You will be surprised where you can dock with the confidence Cummins Inboard Joystick delivers.

INCREDIBLE CRAFTSMANSHIP. IMPECCABLE STYLE. COMMANDING PERFORMANCE.  
**WELCOME TO INSPIRED LUXURY**

*Ushering in a new era of world-class yachting, the Sea Ray L-Class was founded on the philosophy that style thrives on substance.*

SEA RAY® BUILT THE L-CLASS® ATOP A FOUNDATION of commanding capability, rock-solid reliability and world-class craftsmanship. There are five guiding tenets to L-Class design:

**DESIGN SHOULD HAVE MEANING.** L-Class offers seamless anticipation of your every need, with features and finishes that fit you remarkably. This is luxury with soul.

**TRUE PERFORMANCE IS TRUE LUXURY.** Smooth. Solid. Effortless. Putting you in complete command.

**NEVER COMPROMISE COMFORT.** L-Class delivers sophisticated and comprehensive relaxation to set you fully at ease. These yachts will exceed your every expectation without compromises or qualifiers.

**THERE ARE NO LITTLE THINGS.** No detail has been overlooked, from the skillful craftsmanship delivering true seaworthiness down to every last stitch of upholstery.

**TRUE CRAFTSMANSHIP ENDURES.** It's only a lost art if you stop doing it. Signature Sea Ray craftsmanship offers a level of skill and artistry unmatched in the luxury yachting world.

With a comprehensive three-year bow-to-stern warranty, a concierge-led buying experience and personalized delivery—not to mention a 24-hour dedicated customer service representative and incomparable support throughout North America—L-Class invites you to enjoy an entirely new kind of ownership experience.
